

Articles about dysarthria in the (Royal) College of Speech (and Language) Therapists journal, chronologically from 1935-2010

The journal has had several titles over the decades:

- Speech
- Speech Pathology and Therapy (*SPT*)
- British Journal of Disorders of Communication (*BJDC*)
- European Journal of Disorders of Communication (*EJDC*)
- International Journal of Language and Communication Disorders (*IJLCD*)

Worster-Drought, C. 1953. Dysarthria. *Speech*, 17, (2) 48-57

Butfield, E. 1961. Speech therapy and acquired dysarthria. *SPT*, 4, (2) 74-80

Allan, C., Turner, J.W., & Gadea-Ciria, M. 1966. Investigations into speech disturbances following stereotaxic surgery for Parkinsonism. *BJDC*, 1, (1) 55-59

Allan, C. 1970. Treatment of nonfluent speech resulting from neurological disease - treatment of dysarthria. *BJDC*, 5, (1) 3-5

Jones, W.E. 1972. Speech rehabilitation following a stroke. *BJDC*, 7, (1) 82-86

Enderby, P. 1980. Frenchay dysarthria assessment. *BJDC*, 15, (3) 165-174

Downie, A.W., Low, J.M., & Lindsay, D.D. 1981. Speech disorder in Parkinsonism - usefulness of delayed auditory feedback in selected cases. *BJDC*, 16, (2) 135-140

Robertson, S. & Thomson, F. 1984. Speech therapy in Parkinson's Disease: a study of the efficacy and long term effects of intensive treatment. *BJDC*, 19, (3) 213-224

Hardcastle, W.J. & Morgan Barry, R.A. 1985. Articulatory and voicing characteristics of adult dysarthric and verbal dyspraxic speakers: an instrumental study. *BJDC*, 20, (3) 249-270

Ziegler, W. & von Cramon, D. 1986. Spastic dysarthria after acquired brain injury: an acoustic study. *BJDC*, 21, (2) 173-187

Enderby, P. 1986. Relationships between dysarthric groups. *BJDC*, 21, (2) 189-197

Kallen, D., Marshall, R.C., & Casey, D.E. 1986. Atypical dysarthria in Munchausen syndrome. *BJDC*, 21, (3) 377-380

Mackenzie, C. 1987. Communication disorders in Legionnaires' disease. *BJDC*, 22, (3) 253-262

Pentland, B., Gray, J., Riddle, W., & Pitcairn, T. 1988. The effects of reduced non-verbal communication in Parkinson's Disease. *BJDC*, 23, (1) 31-34

Ziegler, W., Hoole, P., Hartmann, E., & von Cramon, D. 1988. Accelerated speech in dysarthria after acquired brain injury: acoustic correlates. *BJDC*, 23, (3) 215-228

Pitcairn, T., Clemie, S., Gray, J., & Pentland, B. 1990. Impressions of parkinsonian patients from their recorded voices. *BJDC*, 25, (1) 85-92

Johnston, J.A. & Pring, T.R. 1990. Speech therapy and Parkinson's disease: a review and further data. *BJDC*, 25, (2) 183-194

Enderby, P. & Crow, E. 1990. Long-term recovery patterns of severe dysarthria following head injury. *BJDC*, 25, (3) 341-354

Hardcastle, W.J., Gibbon, F., & Jones, W. 1991. Visual display of tongue-palate contact: electropalatography in the assessment and remediation of speech disorders. *BJDC*, 26, (1) 41-74

Keller, E., Vigneux, P., & Laframboise, M. 1991. Acoustic analysis of neurologically impaired speech. *BJDC*, 26, (1) 75-94

Burroughs, E., Aronson, A., Duffy, J., & Kyle, R. 1991. Speech disorders in systemic amyloidosis. *BJDC*, 26, (2) 201-206

Adams, S.G. & Lang, A.E. 1992. Can the Lombard effect be used to improve voice intensity in Parkinson's Disease? *EJDC*, 27, (2) 121-135

Hartman, D.E. & Abbs, J.H. 1992. Dysarthria associated with focal unilateral upper motor neuron lesion. *EJDC*, 27, (3) 187-196

Le Dorze, G., Dionne, L., Ryalls, J., Julien, M., & Ouellet, L. 1992. The effects of speech and language therapy for a case of dysarthria associated with Parkinson's Disease. *EJDC*, 27, (4) 313-324

Kennedy, G., Pring, T., & Fawcus, R. 1993. No place for motor speech acts in the assessment of dysphagia? Intelligibility and swallowing difficulties in stroke and Parkinson's Disease patients. *EJDC*, 28, (2) 213-226

Weir, A., Paton, A., & Pentland, B. 1993. Acute disseminated encephalomyelitis: a case study. *EJDC*, 28, (4) 405-413

Vance, J.E. 1994. Prosodic variation in dysarthria: a case study. *EJDC*, 29, (1) 61-76

Keatley, A. & Wirz, S. 1994. Is 20 years too long?: improving intelligibility in long-standing dysarthria - a single case treatment study. *EJDC*, 29, (2) 183-201

Brown, A. & Docherty, G.J. 1995. Phonetic variation in dysarthric speech as a function of sampling task. *EJDC*, 30, (1) 17-35

Howard, S. & Varley, R. 1995. Using electropalatography to treat severe acquired apraxia of speech. *EJDC*, 30, (2) 246-255

Miller, N. 1995. Pronunciation errors in acquired speech disorders: the errors of our ways. *EJDC*, 30, (3) 346-361

Thompson, E.C., Murdoch, B.E., & Stokes, P.D. 1995. Lip function in subjects with upper motor neuron type dysarthria following cerebrovascular accidents. *EJDC*, 30, (4) 451-466

Thompson, E.C., Murdoch, B.E., & Theodoros, D.G. 1997. Variability in upper motor neurone-type dysarthria: an examination of five cases with dysarthria following cerebrovascular accident. *EJDC*, 32, (4) 397-427

Armstrong, L., Jans, D., & MacDonald, A. 2000. Parkinson's disease and aided AAC: some evidence from practice. *IJLCD*, 35, (3) 377-389

Holmes, R.J., Oates, J.M., Phylard, D.J., & Hughes, A.J. 2000. Voice characteristics in the progression of Parkinson's disease. *IJLCD*, 35, (3) 407-418

Perry, A., Anderson, K., Lean, R., & Cotton, S. 2002. Elevation of the soft palate in speech and swallowing in normal female participants and females with motor neuron disease: an innovative procedure for measuring palatal elevation. *IJLCD*, 37, (2) 197-214
